DIRECTIONS OF USE

Depends on what look you are after!

Natural look – to slightly define your lips then find a colour closet to your lip colour or the Lipstick you are applying.

Bold/Statement Look – to create a bold liner look always go for a deeper colour than your lips and the shade of the Lipstick you are applying.

Once your lips are nice and moist, choose your lip liner and start lightly sketching with your lip liner starting from your cupid's bow, drawing an 'X' shape, and then mark out the corners of your mouth by drawing arrows. When this is done, simply connect the lines. Make sure you keep the mouth relaxed and slightly open during application. If you want your lips looking bigger/fuller draw straight across the Cupid's bow then follow the lip line and fill in the lip.
